1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the allowable features recited in the claim. In particular, the USP 5,903,178 (corresponds to JP 08-228138) fails to teach or fairly suggest a second bias voltage is supplied to the pair of main terminals of the second FET (V_{b2} is supplied to drain and source of transistor 121 via resistors 122, 123 of figure 13) and either one of voltages, which are respectively lower and higher than both a voltage derived from subtracting a gate threshold voltage of the first FET with a sign from the first bias voltage and a voltage derived from adding a gate threshold voltage of the second FET with a sign to the second bias voltage is applied to the pair of main terminal of the first FET and the a gate of the second FET as a first control voltage as called for in claim 16, a transmission line having first, second and third transmission signal terminals and the connection between the transmission line and the first and second FETs as called for in claim 19. Therefore, claims 16-24 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY P. CALLAHAN can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
